

SJ Andrew & Sons

STEEL STOCKHOLDING & INDUSTRIAL SUPPLIES

Product Catalogue & Reference Guide

Introduction

Stephen John Andrew
1882 - 1938

After returning to Cornwall from the Gold Mines of South Africa in 1914, Stephen John Andrew purchased a small business in Redruth and established SJ Andrew & Sons, selling used and new steel primarily to the local mining Industry.

The business has remained in the family and grown over the years, significantly with major investment & expansion in the late 80's, and again in early 2011 with the doubling in size of the main steel store.

Still on its original site at South Turnpike in Redruth the business has sales counters, storage and workshop facilities covering 34,000 sq feet, and delivers throughout Cornwall with its fleet of three lorries and two vans.

Holding approximately 500 tonnes of steel, a comprehensive range of Industrial products, being ISO 9001 registered and part of the Troy Buying Group, SJ Andrew & Sons is well placed to provide a fast, friendly & reliable service to customers old & new.

2017

With the centenary already 3 years gone, the new showroom/shop area has proved very successful in providing the customer with a more efficient service.

With Philip and Peter Andrew now past retirement age and a number of other long-standing key members of staff retiring, Nathan Andrew & Malcolm Reynolds now oversee the day to day running of the business, with a team of staff who have a large number of years' service between them which enables the continued growth of the business.

Delivery Service

We deliver throughout Cornwall on a daily basis.

Please phone for details.

Cutting Service

We offer a cutting service on all steel sections and plate up to 13mm.

Please ring in advance to order cut items.

Terms

All goods remain the property of SJ Andrew & Sons Ltd until paid for in full.

All prices quoted are subject to VAT at the current rate.

For Account customers payment terms are strictly 30 days nett and are payable at the end of the month following date of the invoice.

All major credit cards accepted for cash sale customers

Whilst every care has been taken to list correct weights and sizes in this catalogue, it is possible that specifications and sizes may be altered in the future. We would advise that the user of the material checks to their own satisfaction the material is suitable for their own needs.

We do not claim to keep all of the items shown in this catalogue but have included what we feel are the most popular sizes and believe this catalogue can be used as a reference book for the majority of your buying needs.

With increasing importance on material traceability we are able to offer Full Mill Certs or Certificate of Conformity if requested at time of order.

Galvanizing Services

excellence **IN GALVANIZING**

As a collection point for South West Galvanizers of Crediton, we can offer a galvanizing service on a weekly turnaround. We can also collect and re-deliver to you the customer if required.

Material is required to be at SJ Andrew & Sons by 5pm on a Tuesday with paperwork (drawings with dimensions of items for identification) clean and free from rust, paint and all other coatings and suitably vented. Your items will then be ready for collection from 8am Thursday of the following week.

The Process

Material is immersed in molten zinc at a temperature of around 450 degrees until the temperature of the work is the same as the Zinc. During this process the molten zinc reacts with the surface of the steel to form a series of zinc/iron alloys, all parts of the surface of the steel are coated - inside, outside, awkward corners, and narrow gaps which would be impossible to protect in any other way.

The process is relatively simple, straightforward and closely controlled. The thicknesses (weights) of coatings formed are regular, predictable and simply specified. Galvanizing is one of the few coatings which is completely defined by a British Standard (BS EN ISO 1461).

Please phone for details & costs (premium turnaround is available at extra cost).

Bath Size

10.250 Mtrs x 1.000 Mtr x 2.700 Mtrs

(No items with a return of more than 1.000 Mtr can be Galvanised)

Workshop Services

Small to Medium Fabrication Work undertaken by our dedicated workshop team, from one off jobs to multiple's in Mild Steel as well as Stainless & Aluminium.

Workshop Capabilities

Sheet & Plate Folding | 0.8mm - 3.0mm x 2.500 mtrs

Guillotine | 1 - 13mm x 3.000 mtrs

Tube Bending | 15-50mm Diameter

Pipe Threading | 15mm - 100mm

Drilling & Punching

Notching

Structural Fabrication

Steel Staircases

Floor Grates

Louver Panels

Truss Brackets

Stainless Steel Work Tables

Fabricated Moulds

Lifting Beams

Storage Racking

General Stores

For a wide range of engineering products, pipeline supplies, tooling and consumables covering all trades.

Specifying Kee Klamp® Components

Each fitting has a simple numerical code reference, which defines the type of fitting and the pipe size, or sizes, it is designed to receive. The first number, preceding the dash (-) identifies the type of Kee Klamp fitting. A single digit, following the dash, defines pipe size. Two single digits after the dash indicate that the fitting is designed to receive two sizes of pipe.

Examples:

10-8

Kee Klamp Fitting Type **10**

Both sockets 'A' and 'B' designed to accept pipe size **8**

45-76

Socket 'A' designed to accept pipe size **7**
Socket 'B' designed to accept pipe size **6**

Kee Klamp Fitting Type **45**

FASTENERS

BOLTS & SETSCREWS

Metric	UNC	UNF
Stainless Steel	Bright Zinc Plated	
Self Colour	Galvanized	

NUTS

WELDING SUPPLIES

MIG WELDING

Regulators – Argon, Co2, Mini
MIG Wire – Flux Cored, Mild Steel, Stainless & Aluminium
Disposable & Refillable Gas Cylinders
Anti Spatter & Tip Dip
MIG Welders • MIG Torches & Consumables
Liners, Tips, Shrouds, Tip Holders, Diffusers
Large Cylinder Adaptor Kits
Flowmeters • Argon Hose

ARC WELDING

Arc Welders
Arc Inverters
Cable Plugs & Sockets
Electrode Holders
Earth Clamps
Welding Clamp Set
Fillet Gauge
Magnetic Support Bracket
Cable Lugs
Welding Cable
Chalk – Flat & Holders, Square
Chipping Hammers
Stainless Steel Wire Brushes
Rods – Mild Steel, Low, Hydrogen, Cast Iron, Hard Facing, Stainless Steel

TIG WELDING

Tungstens – Thoriated, Zirconiated
Rods – Aluminium, Stainless & Steel
Pickling Paste, TIG Welding Machines, Torch Consumables
Collets, Collet Bodies, Ceramics, Back Caps

WELDING SUPPLIES

GAS WELDING, HEATING & CUTTING

Regulators – Oxygen, Acetylene, Propane
Flashback Arrestors
Rods – Brazing, Silver Solder, Gas Welding
Flint Lighters
Hoses – Oxygen, Acetylene, Propane
Hose Clips
Fittings – Nuts, Hose Check Valves, Tails, Splicers
Leak Detection Spray
Shank – Mixers & Cutting Attachments
Cutting Torches, Lead Burning Kit
Welding & Cutting Boxed Sets, Trolleys
Welding & Cutting Nozzles, Gouging Nozzles
Combination Spanners
Nozzle Cleaning Sets, Cylinder Spindle Keys
Super Fire Brazing Torch, Disposable Gas Cylinders
Map/Pro, Multigas & Propane Burners
Propane Torch Sets, Plasma Cutting Consumables
Tips & Electrodes

WELDING SAFETY

Welding Headshields & Handshields
Auto Darkening Helmets
Welding Goggles & Flip-up Goggles
Lenses – Shaded & Clear Cover Lenses
Flame Retardant Caps & Bandanas
Proban Balaclava with Cape
Chrome Leather Aprons
Heat Resistant Leather Jackets
Skull Caps
Leather Sleeves & Spats

Twin Halogen Floodlights
on Tripod 1000W

HEATING

Ceramic Heater
Propane Space Heater
Diesel/Paraffin Heater

AIR PRODUCTS

We stock the extensive range of Air Products:

- Welding & cutting gases
- Balloon Gas
- Food & beverage gases

As an Air Products authorized agent we have the gas and the cylinder size to suit you - what ever the application. We are able to provide you with all the benefits of a local supplier - backed by the expertise and knowledge of an international company.

- Fast, responsive delivery
- Friendly, reliable service
- Wide product range of industrial gases
